Washington, DC 20460
foia@epa.gov

Subject:

FOIA Request: Timing and Coordination of Fluoride Removal, Mining Expansion, and Monitoring Rollbacks (2021-2025)

Request:

Pursuant to the Freedom of Information Act (5 U.S.C. § 552), I am requesting access to all records and communications created or received between January 1, 2021, and the present concerning the potential coordination, sequencing, or public messaging of the following regulatory and policy shifts:

- The removal or defunding of public water fluoridation programs
- The fast-tracked expansion of mining operations (including lithium, uranium, and copper) in Utah and nationally
- The rollback, exemption, or suppression of air and water quality monitoring for heavy metals

Please include all records that:
1. Discuss interagency planning, timing, or strategy regarding these changes
2. Reference public health optics, stakeholder messaging, or phased rollout
3. Mention delays, suppression, or cancellation of environmental or toxicological reviews

Please search the records of:
- EPA Office of Policy
- EPA Region 8 Office (Utah)
- Utah DEQ and Utah DHHS
- External correspondence with Rio Tinto, Kennecott, Lithium Americas, and state legislative offices

Please include any documents containing or referring to:
- 'rollout strategy', 'interagency alignment', 'optics', 'communications plan', 'stakeholder response', or 'regulatory window'

I request digital format delivery and a waiver of all fees as this is in the public interest. If any documents are withheld, please provide the legal exemption and release all segregable materials.

Sincerely,

[Your Full Name]
